

### Basis of Participation – New Members

Companies participating in the Lead REACH Consortium are subject to different fees depending on the substances in which they have an interest. An element of their fees is also based on tonnage. The first two tables below require the declaration of tonnage data for the period 2007-2009 for the purposes of calculating the Levy Fee. The final table below requires the declaration of tonnages for the period 2004-2006 for the purposes of calculating VRAL Entry Fees. VRAL Entry fees are only payable for “pure substance” tonnages.

Payment of pro-rata fees is a condition of entry into the Consortium. Please complete and return the following form upon application. **Please read the guidance at the end of this form before completing the table.**

“Pure” Substance	Is this a substance for which you have REACH obligations? <sup>1</sup>  (yes/no)	Annual tonnage of lead content eligible for Levy Fees <sup>2</sup>			Substance manufactured from intermediate within the same entity or group? <sup>3</sup>  (yes/no)
		2007 (fee = €0.18/t)	2008 (fee = €0.05/t)	2009 (fee = €0.05/t)	
Lead metal					
Lead oxide <sup>4</sup>					
Lead tetroxide					
Dibasic lead phthalate					
Basic lead sulphate					
Tribasic lead sulphate					
Tetrabasic lead sulphate					
Neutral lead stearate					
Dibasic lead stearate					
Dibasic lead phosphate					
Basic lead carbonate					

<b>Basic lead sulphite</b>					
<b>Lead chloride</b>					

“Complex Intermediate” Substance	Is this a substance for which you have REACH obligations? <sup>1</sup>  (yes/no)	Annual tonnage of lead content eligible for Levy Fees <sup>2</sup>			Substance manufactured from intermediate within the same entity or group? <sup>3</sup>  (yes/no)
		2007 (fee = €0.18/t)	2008 (fee = €0.05/t)	2009 (fee = €0.05/t)	
Lead, Bullion					
Matte, Copper –lead					
Matte, lead					
Speiss, Lead					
Slags, Lead smelting					
Flue dust, lead refining					
Flue dust, lead manuf. Cad rich					
Flue dust, lead blast furnace					
Fume, lead					
Lead dross					
Copper dross					
Lead, dross, copper rich					
Lead dross antimony rich					
zinc, desilverising skims					
Silver, crusts					
Lead antimonial dross					
Lead dross, bismuth rich					
Waste, battery reprocessing					
Residues, lead smelting waste water treatment					
Slimes + sludges, battery scrap antimony + lead -rich					
Residues - lead smelting					
Lead alloy, base, dross					

Lead alloy, base, Pb,Sn, dross					
Slags, lead reverbatory smelting					
Triple alloy					

Note that grey shading indicates groups of intermediates for which SIEFs will be merged.

"Pure" Substance	Is this a substance for which you have REACH obligations? <sup>1</sup>  (yes/no)	Annual tonnage of lead content eligible for VRAL Entry Fees <sup>2</sup>			Substance manufactured from intermediate within the same entity or group? <sup>3</sup>  (yes/no)
		2004 (fee = €0.13/t)	2005 (fee = €0.05/t)	2006 (fee = €0.05/t)	
Lead metal					
Lead oxide <sup>4</sup>					
Lead tetroxide					
Dibasic lead phthalate					
Basic lead sulphate					
Tribasic lead sulphate					
Tetrabasic lead sulphate					
Neutral lead stearate					
Dibasic lead stearate					
Dibasic lead phosphate					
Polybasic lead fumarate					
Basic lead carbonate					
Basic lead sulphite					
Lead chloride

## **Accompanying Notes**

### 1. Substances for which you have REACH obligations

You must declare all the substances for which you intend to use Pb REACH Consortium information to fulfil your REACH obligations. This includes substances you manufacture in the European Community or import into the European Community. These obligations may include, for example, the obligation to communicate information down the supply chain.

There was an annual fixed fee for the period 2008-2010 of €10,000 for manufacturers and importers of lead metal and €7,500 for manufacturers and importers of lead compounds. The current (2016) Fixed Fee is €6,000 for lead metal and €4,500 for lead compounds.

### 2. Tonnage of lead content eligible for Levy Fees

This is the metric tonnage of lead metal (including that contained in alloys) or the lead content of lead compounds or complex intermediates manufactured within or imported into the European Community.

### 3. Substance manufactured from intermediate within the same entity or group

Any legal entity or group of companies shall pay the Levy Fee only once for its lead or lead content of compounds. Hence if the tonnage you have declared for any substance is the result of the chemical transformation of an intermediate for which the tonnage has also been declared, either by your own company or by another company within the same Group of companies, you must identify this by ticking the relevant box in order to avoid a double charge.

### 4. Battery lead oxide

A battery lead oxide is assumed to be a mixture under REACH (see Eurobat position paper, 2008) and hence only the quantity of lead in the lead oxide component of battery oxide should be declared.
