

## **To Potential Lead REACH Consortium Letter of Access Applicants**

The Lead REACH Consortium has prepared the following set of documents for legal entities that wish to consider applying for a Letter of Access (LOA) for Consortium substances:

- Substance ID profiles
- Classification and Labelling information
- LOA legal agreements (for EU/GB manufacturers/importers and Only Representatives)
- Sample Letters of Access
- Additional information form
- Letter of Access summary (explanatory note)
- Instructions on applying for an LOA

All these documents should be carefully read and, if deciding to apply for an LOA, the guidance given in the “Instructions on applying for an LOA” document should be followed.

Should you require any further information on the Lead REACH Consortium LOAs, please contact ([REACH@ila-lead.org](mailto:REACH@ila-lead.org)).
